The French Language is not easy to learn. Therefore having some sort of graphic organizer, such as a pamphlet, will help. If a French student has a pamphlet with some of the important vocabulary words on it, they will be guided in memorization. They can see the words they are to memorize right in front of them. It is also an organizational strategy. If a teacher gives a pamphlet with new vocabulary every unit, the students will know exactly where to find the words when it is time to study. Pamphlets will assist students in being successful in foreign language.
