

The Natural History of German Life

History of German Life. In Germany, perhaps more than in any other country, it is among the peasantry that we must look for the historical type of the national physique. In the towns this type has become so modified to express the personality of the individual that even family likeness is often but faintly marked. But the peasants may still be distinguished into groups, by their physical peculiarities. In one part of the country we find a longer-legged, in another a broader-shouldered race, which has inherited these peculiarities for centuries. Between many villages an historical feud, once perhaps the occasion of much bloodshed, is still kept up under the milder form of an occasional round of cudgelling and the launching of traditional nicknames. An historical feud of this kind still exists, for example, among many villages on the Rhine and more inland places in the neighborhood. ... Marriage is a very prudential affair, especially among the peasants who have the largest share of property. ... The girls marry young, ...
