

## My Little Miracle Man

My Little Miracle Man is a novel about a Cocker Spaniel with a rare blood disease and heart condition (platelet autoimmune disorder/AIHA - red blood cell disorder). It entails all the hardships that he and I have faced with vets, hospital/vet visits, cost, and his medications. This novel explains the warning signs that can easily be missed by owners. This novel takes the reader through the past seven years from when Dex was a pup, to being sick, having seizures on top of his heart condition, and how he and I have survived. This novel is a must have, especially if you have an animal with a platelet disorder. Based on a True Story.
