

Widening Circles: A Memoir

In this absorbing memoir, well-known eco-philosopher, Buddhist scholar, and deep ecology activist/teacher Joanna Macy recounts her adventures of mind and spirit in the key social movements of our era. From involvement with the CIA and the Cold War, through experiences in Africa, India and Tibet, to her encounter with the Dalai Lama and Buddhism which led to her life-long embrace of the religion and a deep commitment to the peace and environmental movements, Macys autobiography reads like a novel as she reflects on how her marriage and family life enriched her service to the world. Widening Circles reveals the unique synthesis of spirituality and activism that define Macys contribution to the world.
