

The Challenge of Our Times

From the beginning God gave the answers concerning everything which was expedient for men to know in order to live happy, profitable lives. In this age these answers have been reaffirmed. The Challenge of Our Times is recapturing these truths and using them to restore mans confidence in his own divine mission and the purposefulness of life. The Challenge of Our Times is a compilation of answers to questions which plague the minds of modern men. W. Cleon Skousen diligently researched the questions presented in the book and along with suggestions and guidance from Joseph Fielding Smith, A.W. Lund, and Gordon B. Hinckley, provides here a thoughtful and thorough perspective on answers to these and other important issues: Are there living prophets today? How may modern men learn about God? What are the principle stumbling blocks to faith? How does the Book of Mormon fit in with the Bible? What is meant by the Second Coming of Christ? What is the purpose of life? The Challenge of Our Times lays an outstanding foundation to help you in your personal studies about issues facing people today.
