

## MIND AND BODY. Mental States and Physical Conditions. (Timeless Wisdom Collection Book 124)

The Mind can Heal the body. With that premise, Atkinson presents us with another jewel of truth. One that, read at the right time, could help us understand our own power in case of disease and health problems. The Mind acts upon the Body; the Body reacts upon the Mind; cause and effect become confused; the reasoning becomes circular like a ring it has no beginning, no end; its beginning may be any place we may prefer, its ending likewise. The only reconciliation is to be found in the fundamental working hypothesis which holds that both Mind and Body both Mental States and Physical Conditions are the two aspects of something greater than either the opposing poles of the same Reality.
