

Food for Thought: Your Guide to Healthy Eating

In his bestselling book *Food for Thought*, Dr Vernon Coleman gives simple guidelines for healthy eating, provides the scientific evidence proving that meat causes cancer, offers easy to follow slimming tips and lists 101 superfoods that can improve your health. (Dr Coleman was warning about the link between meat and cancer in the early 1990s.) Dr Coleman also explains which foods are associated with cancer and other diseases. *Food for Thought* has sold over 45,000 copies in the UK alone. Advertisements for *Food for Thought* were banned in the UK because authorities thought that the scientific information it contains (there are, for example) over two dozen references to research proving that meat causes cancer) were likely to damage the meat industry. The contents include: Everything you need to know about carbohydrates, protein and fat Do you need vitamin and mineral supplements? Is tap water safe to drink? The truth about a vegetarian diet How to avoid food poisoning The truth about microwaves and food irradiation What the reviewers say: `...advice on vitamins, minerals, healthy drinking, losing weight and much more. If youre worried about what you eat, this will tell you what to avoid. - Good Book Guide `...his no nonsense approach to all foods makes finding your way through the nutritional maze that much easier. -Evening Times `Have just finished reading your latest edition of *Food for Thought*. I have found the book fascinating and informative. - GP, London `I consider it to be one of the most brilliant books of its kind that I have ever read. Not only are the contents a mine of information and advice but the style is such that it makes the whole so thoroughly enjoyable to read; indeed it is a book difficult to put down. GP Streatham What the critics say about Vernon Coleman and his books: `No thinking person can ignore him. - The Ecologist A godsend - Daily
